

Lesson 03 Interactive Elements / Basics of Editing

1 Live Chats, viewer polls, on-screen notifications or virtual Q&A sessions

2 Basics of editing with Adobe Premiere and or Da Vinci Resolve

Live Chat with Youtube

The screenshot shows a web browser window displaying the YouTube Help page. The browser's address bar shows the URL: <https://support.google.com/youtube/answer/2524549?hl=en&sjid=2286032164015784857-EU>. The page title is "YouTube Help" and the search bar contains "Describe your issue". The breadcrumb trail is "Live stream on YouTube > Use Live Chat during your live stream or Premiere".

Use Live Chat during your live stream or Premiere

Live Chat lets you have real-time interactions with your viewers during live streams and Premieres. To view your Live Chat, click the down arrow at the top of the chat menu and select **Top Chat** or **All Chat**.

Learn more about [Live Chat](#) or [moderate your Live Chat](#).

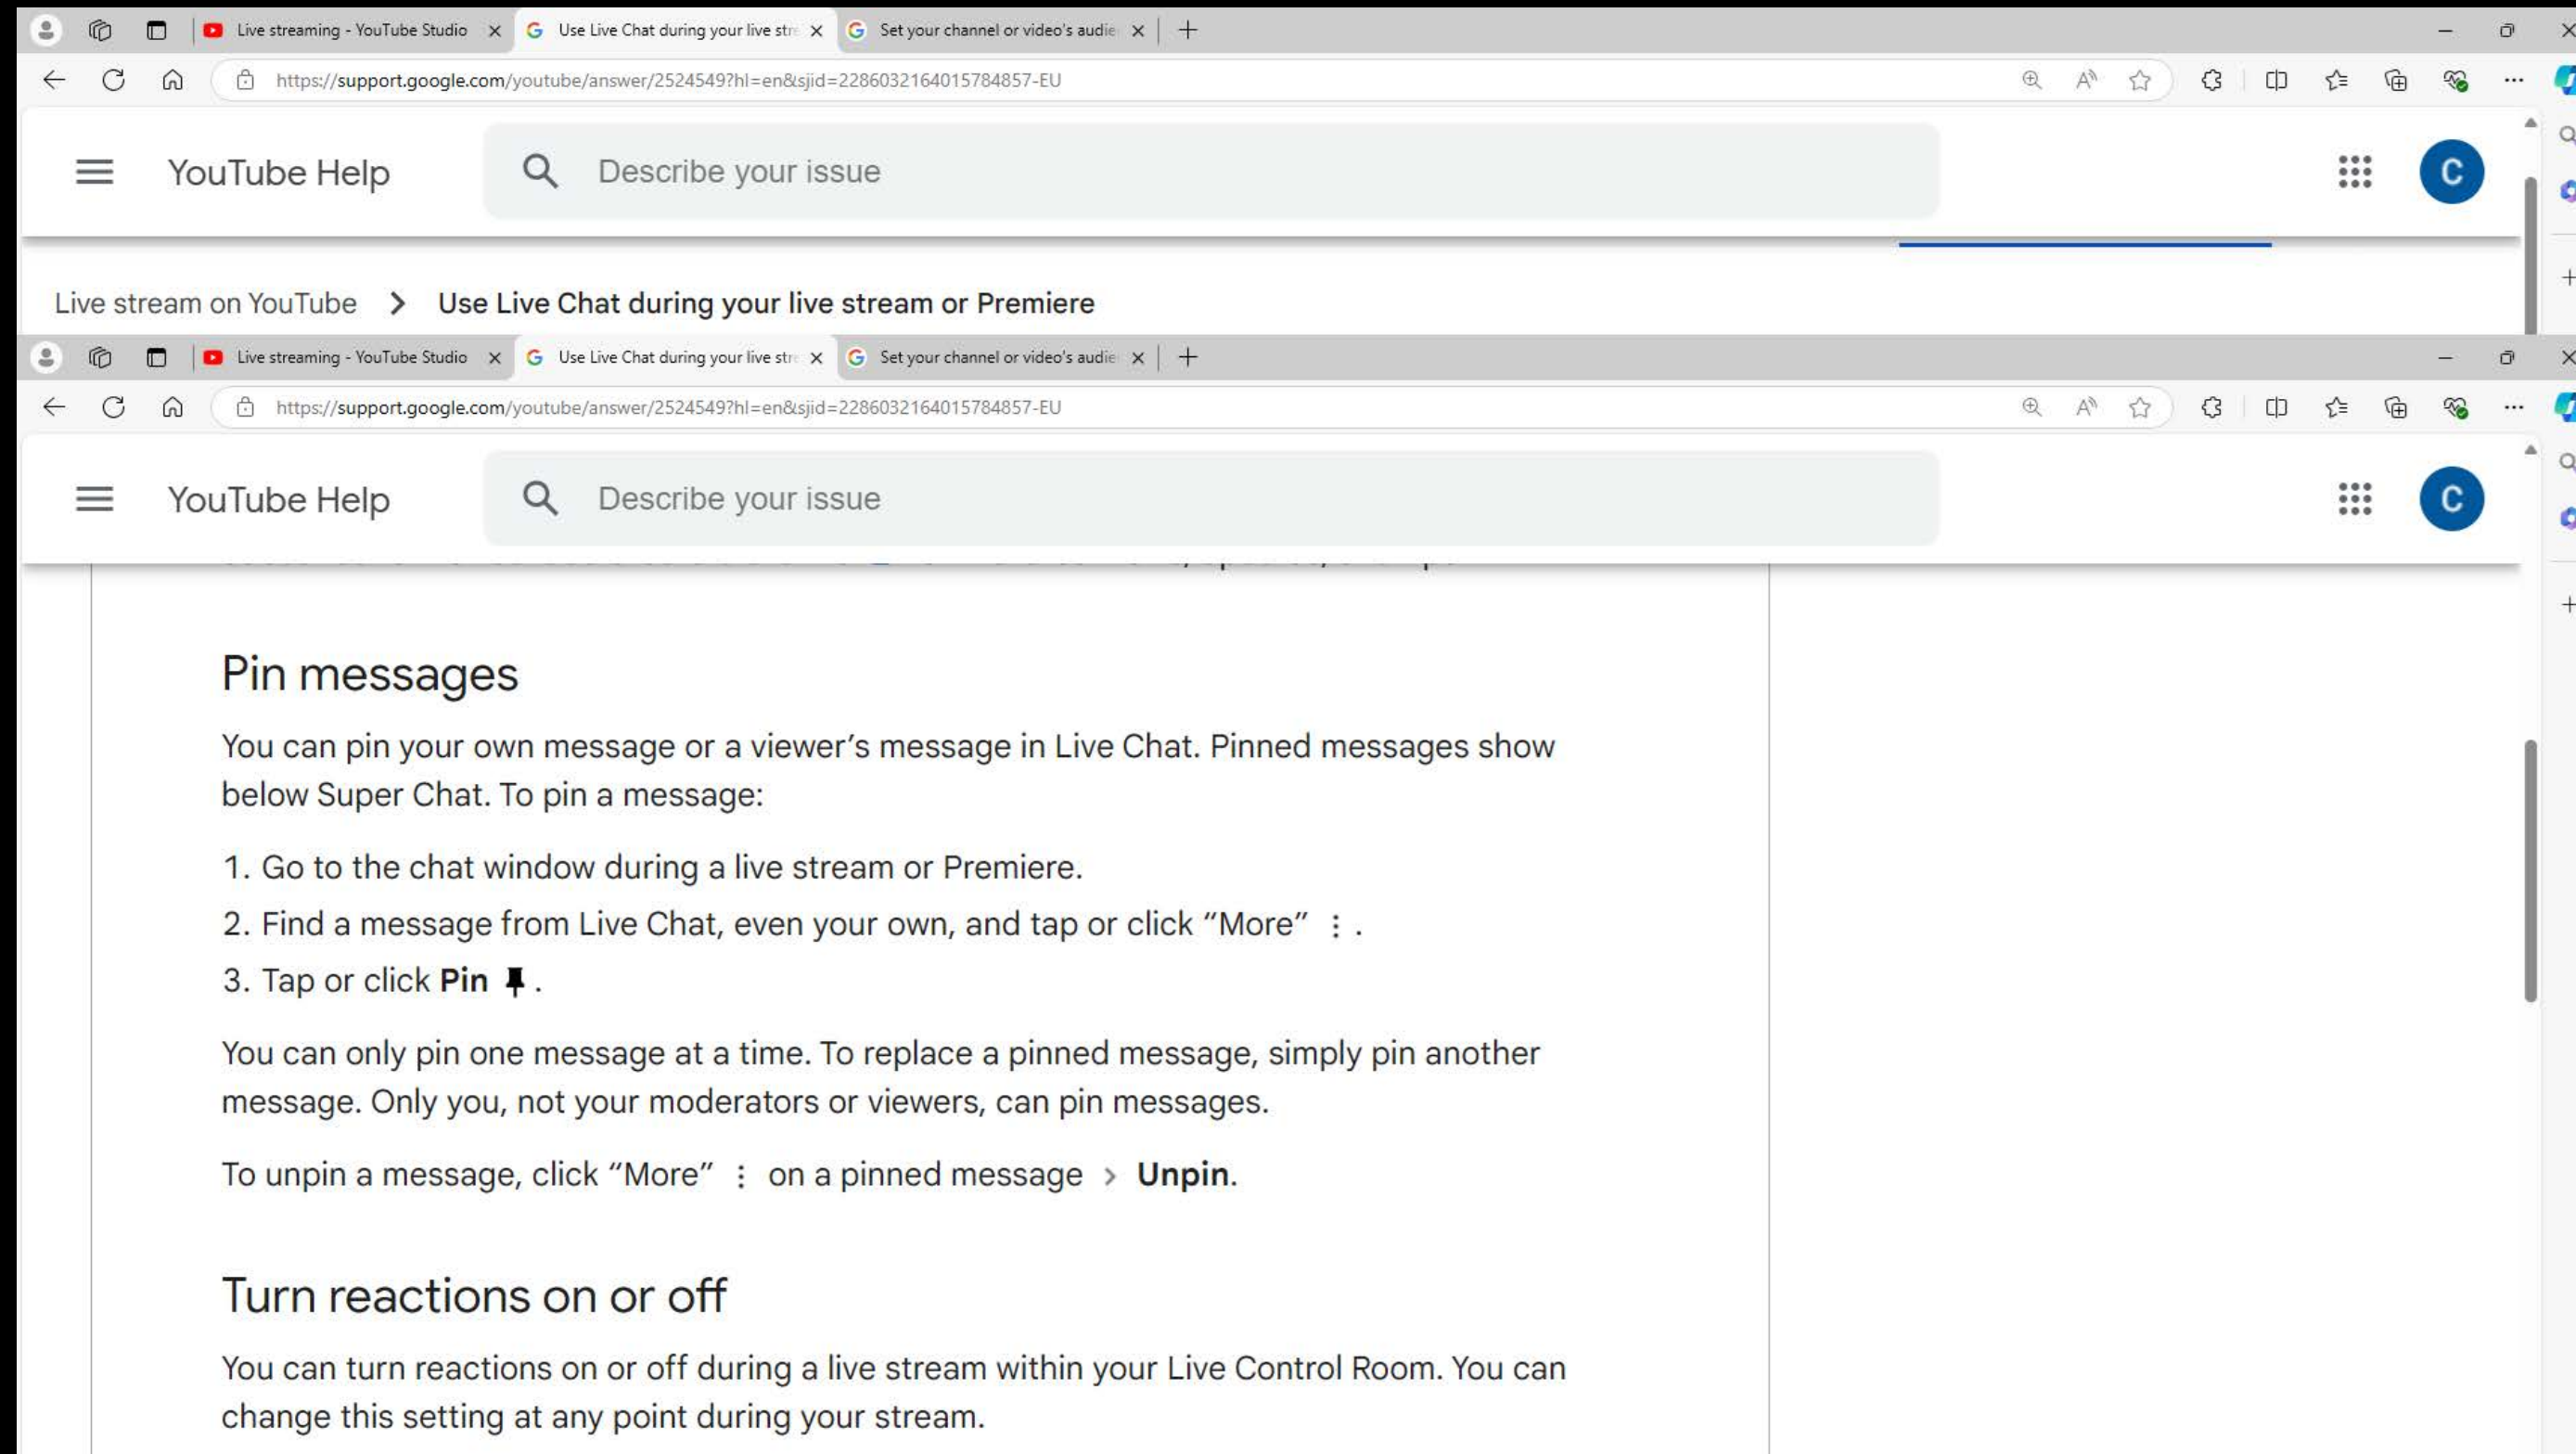

Subscribe to the [YouTube Creators channel](#) for the latest news, updates, and tips.

Live stream on YouTube

- Use Live Chat during your live stream or Premiere
- Manage YouTube Super Chat & Super Stickers for Live Chat
- Live caption requirements
- Use IFTTT when you monetize
- Block other viewers on YouTube live chat
- Use automatic captioning
- Moderate live chat

Live Chat with Youtube

The image shows a screenshot of a web browser displaying a YouTube Help article. The browser's address bar shows the URL: <https://support.google.com/youtube/answer/2524549?hl=en&sjid=2286032164015784857-EU>. The page title is "Live stream on YouTube > Use Live Chat during your live stream or Premiere". The article content is as follows:

Pin messages

You can pin your own message or a viewer's message in Live Chat. Pinned messages show below Super Chat. To pin a message:

1. Go to the chat window during a live stream or Premiere.
2. Find a message from Live Chat, even your own, and tap or click "More" ⋮.
3. Tap or click **Pin** 📌.

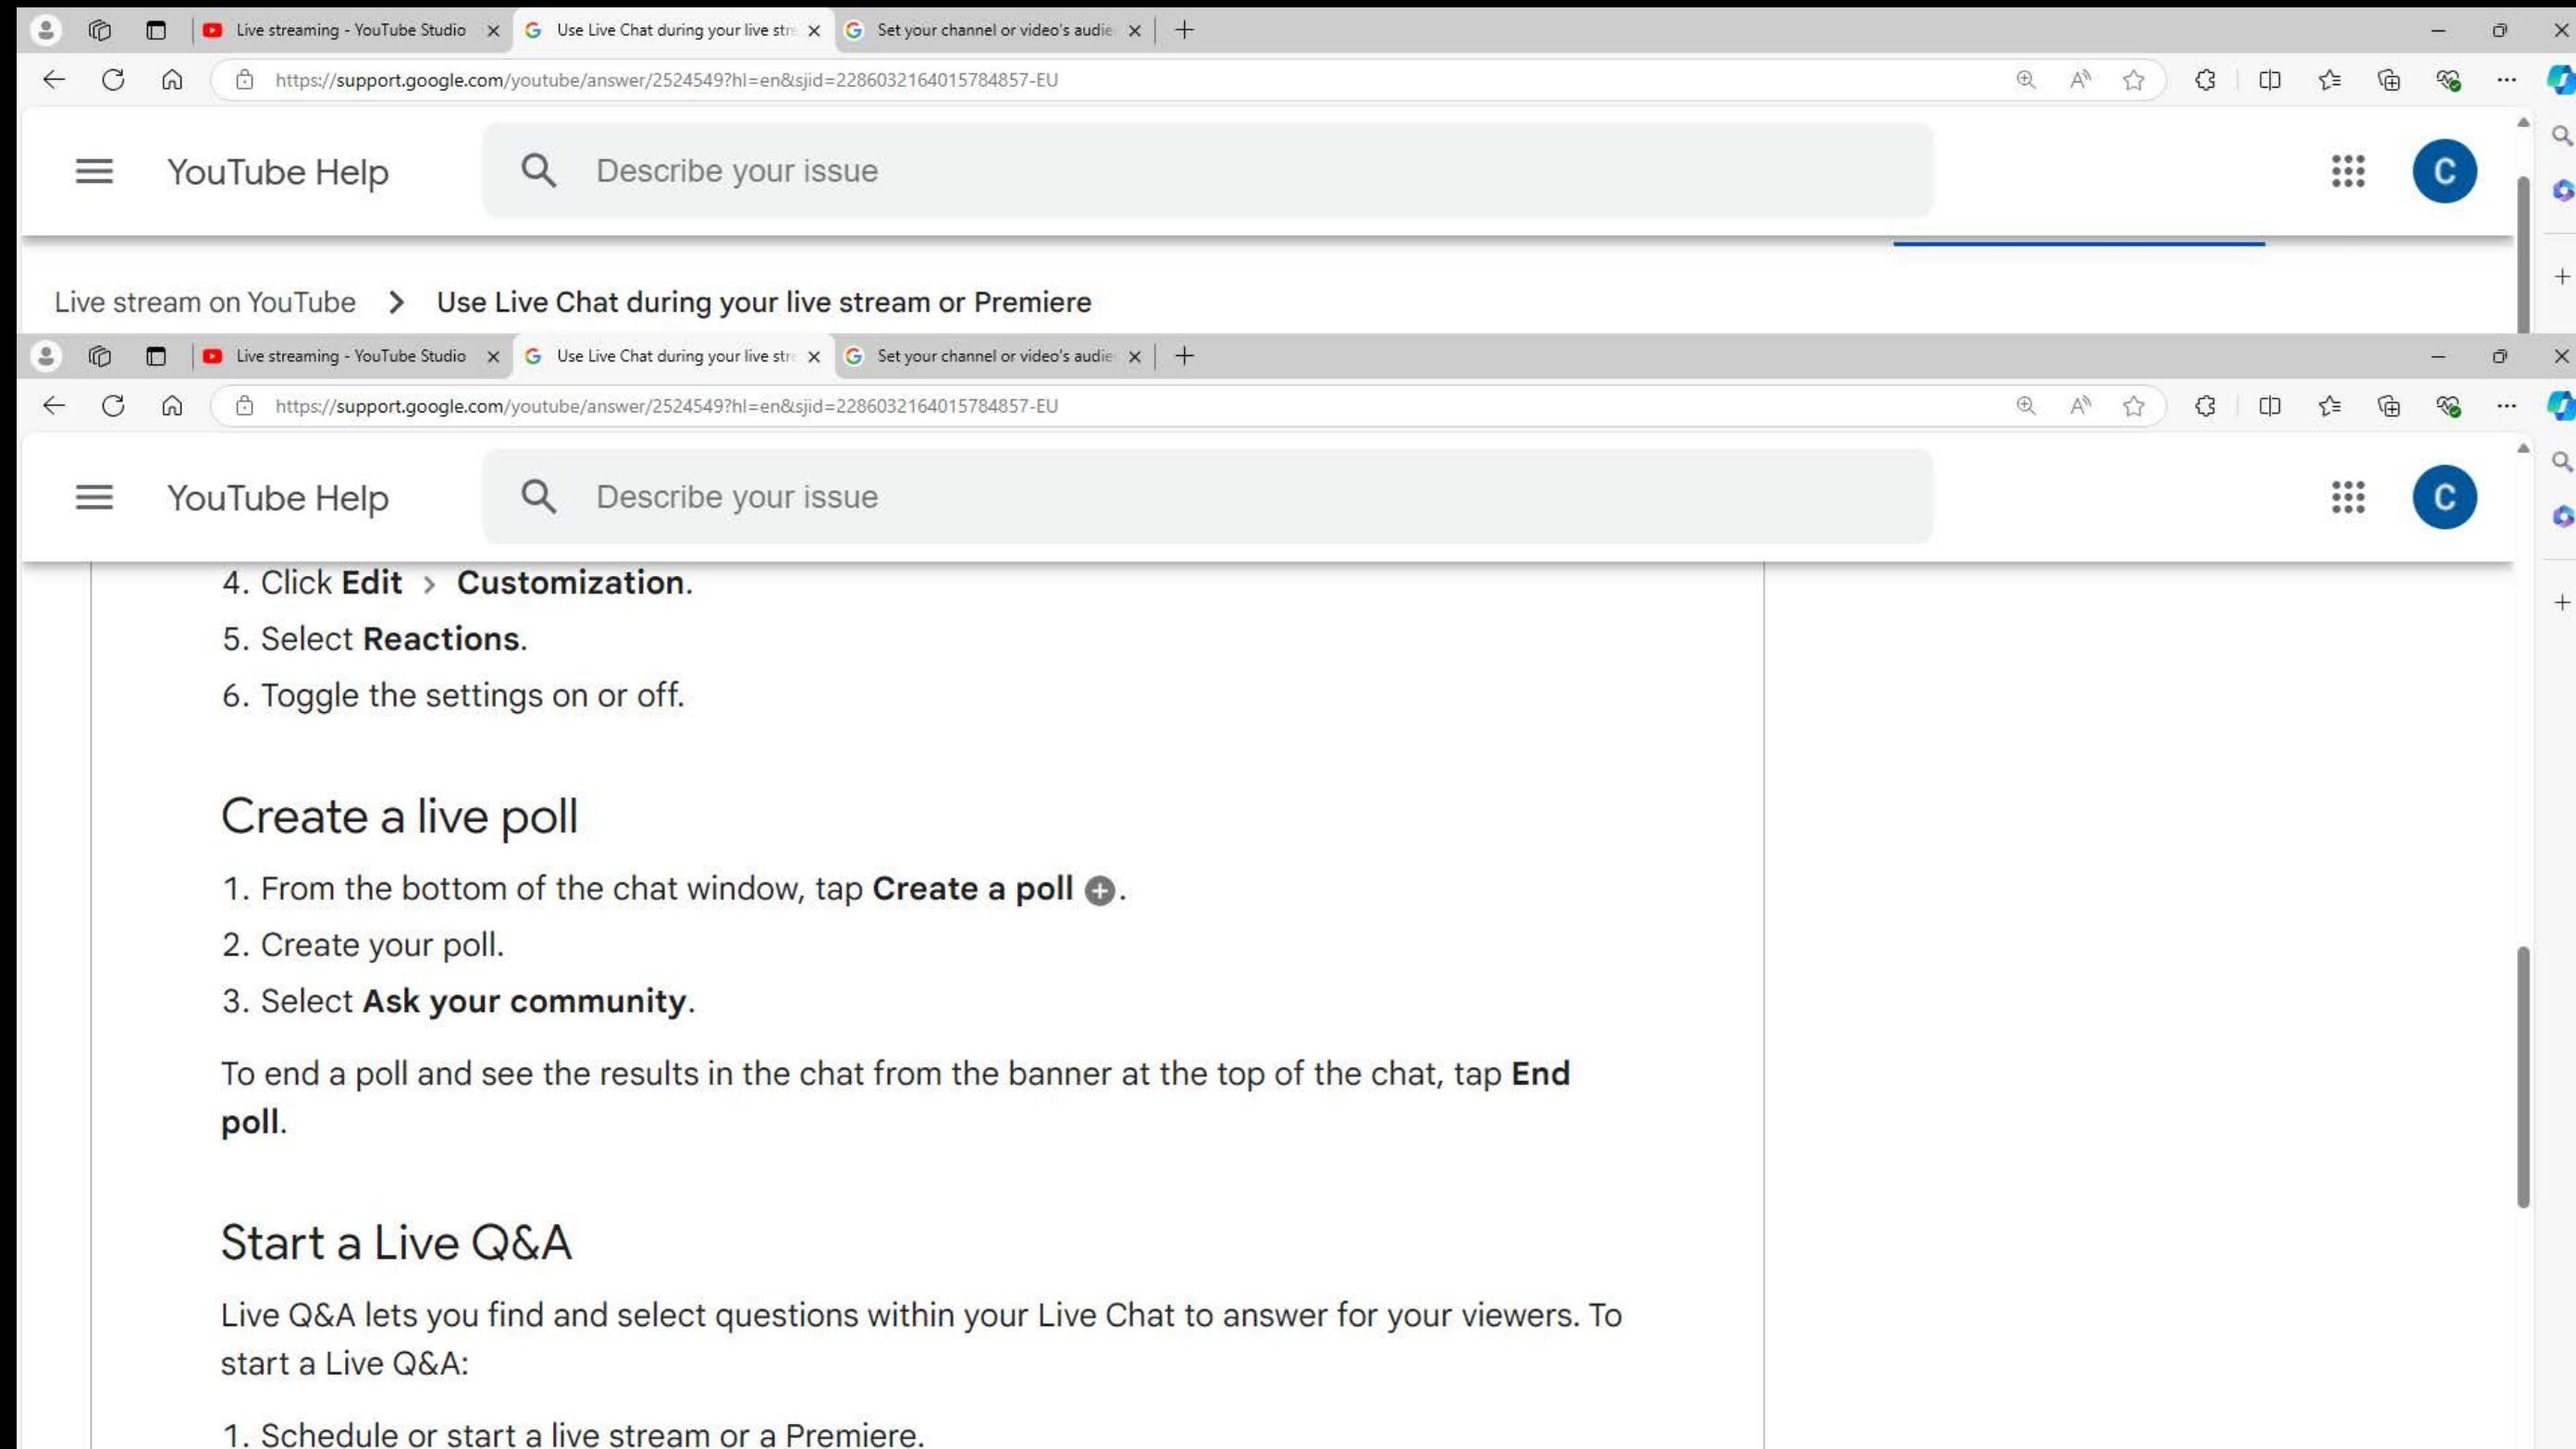

You can only pin one message at a time. To replace a pinned message, simply pin another message. Only you, not your moderators or viewers, can pin messages.

To unpin a message, click "More" ⋮ on a pinned message > **Unpin**.

Turn reactions on or off

You can turn reactions on or off during a live stream within your Live Control Room. You can change this setting at any point during your stream.

Live Chat with Youtube

The image shows a screenshot of a web browser displaying a YouTube Help article. The browser's address bar shows the URL: <https://support.google.com/youtube/answer/2524549?hl=en&sjid=2286032164015784857-EU>. The page title is "Live stream on YouTube > Use Live Chat during your live stream or Premiere". The article content includes the following steps:

4. Click **Edit** > **Customization**.
5. Select **Reactions**.
6. Toggle the settings on or off.

Create a live poll

1. From the bottom of the chat window, tap **Create a poll** .
2. Create your poll.
3. Select **Ask your community**.

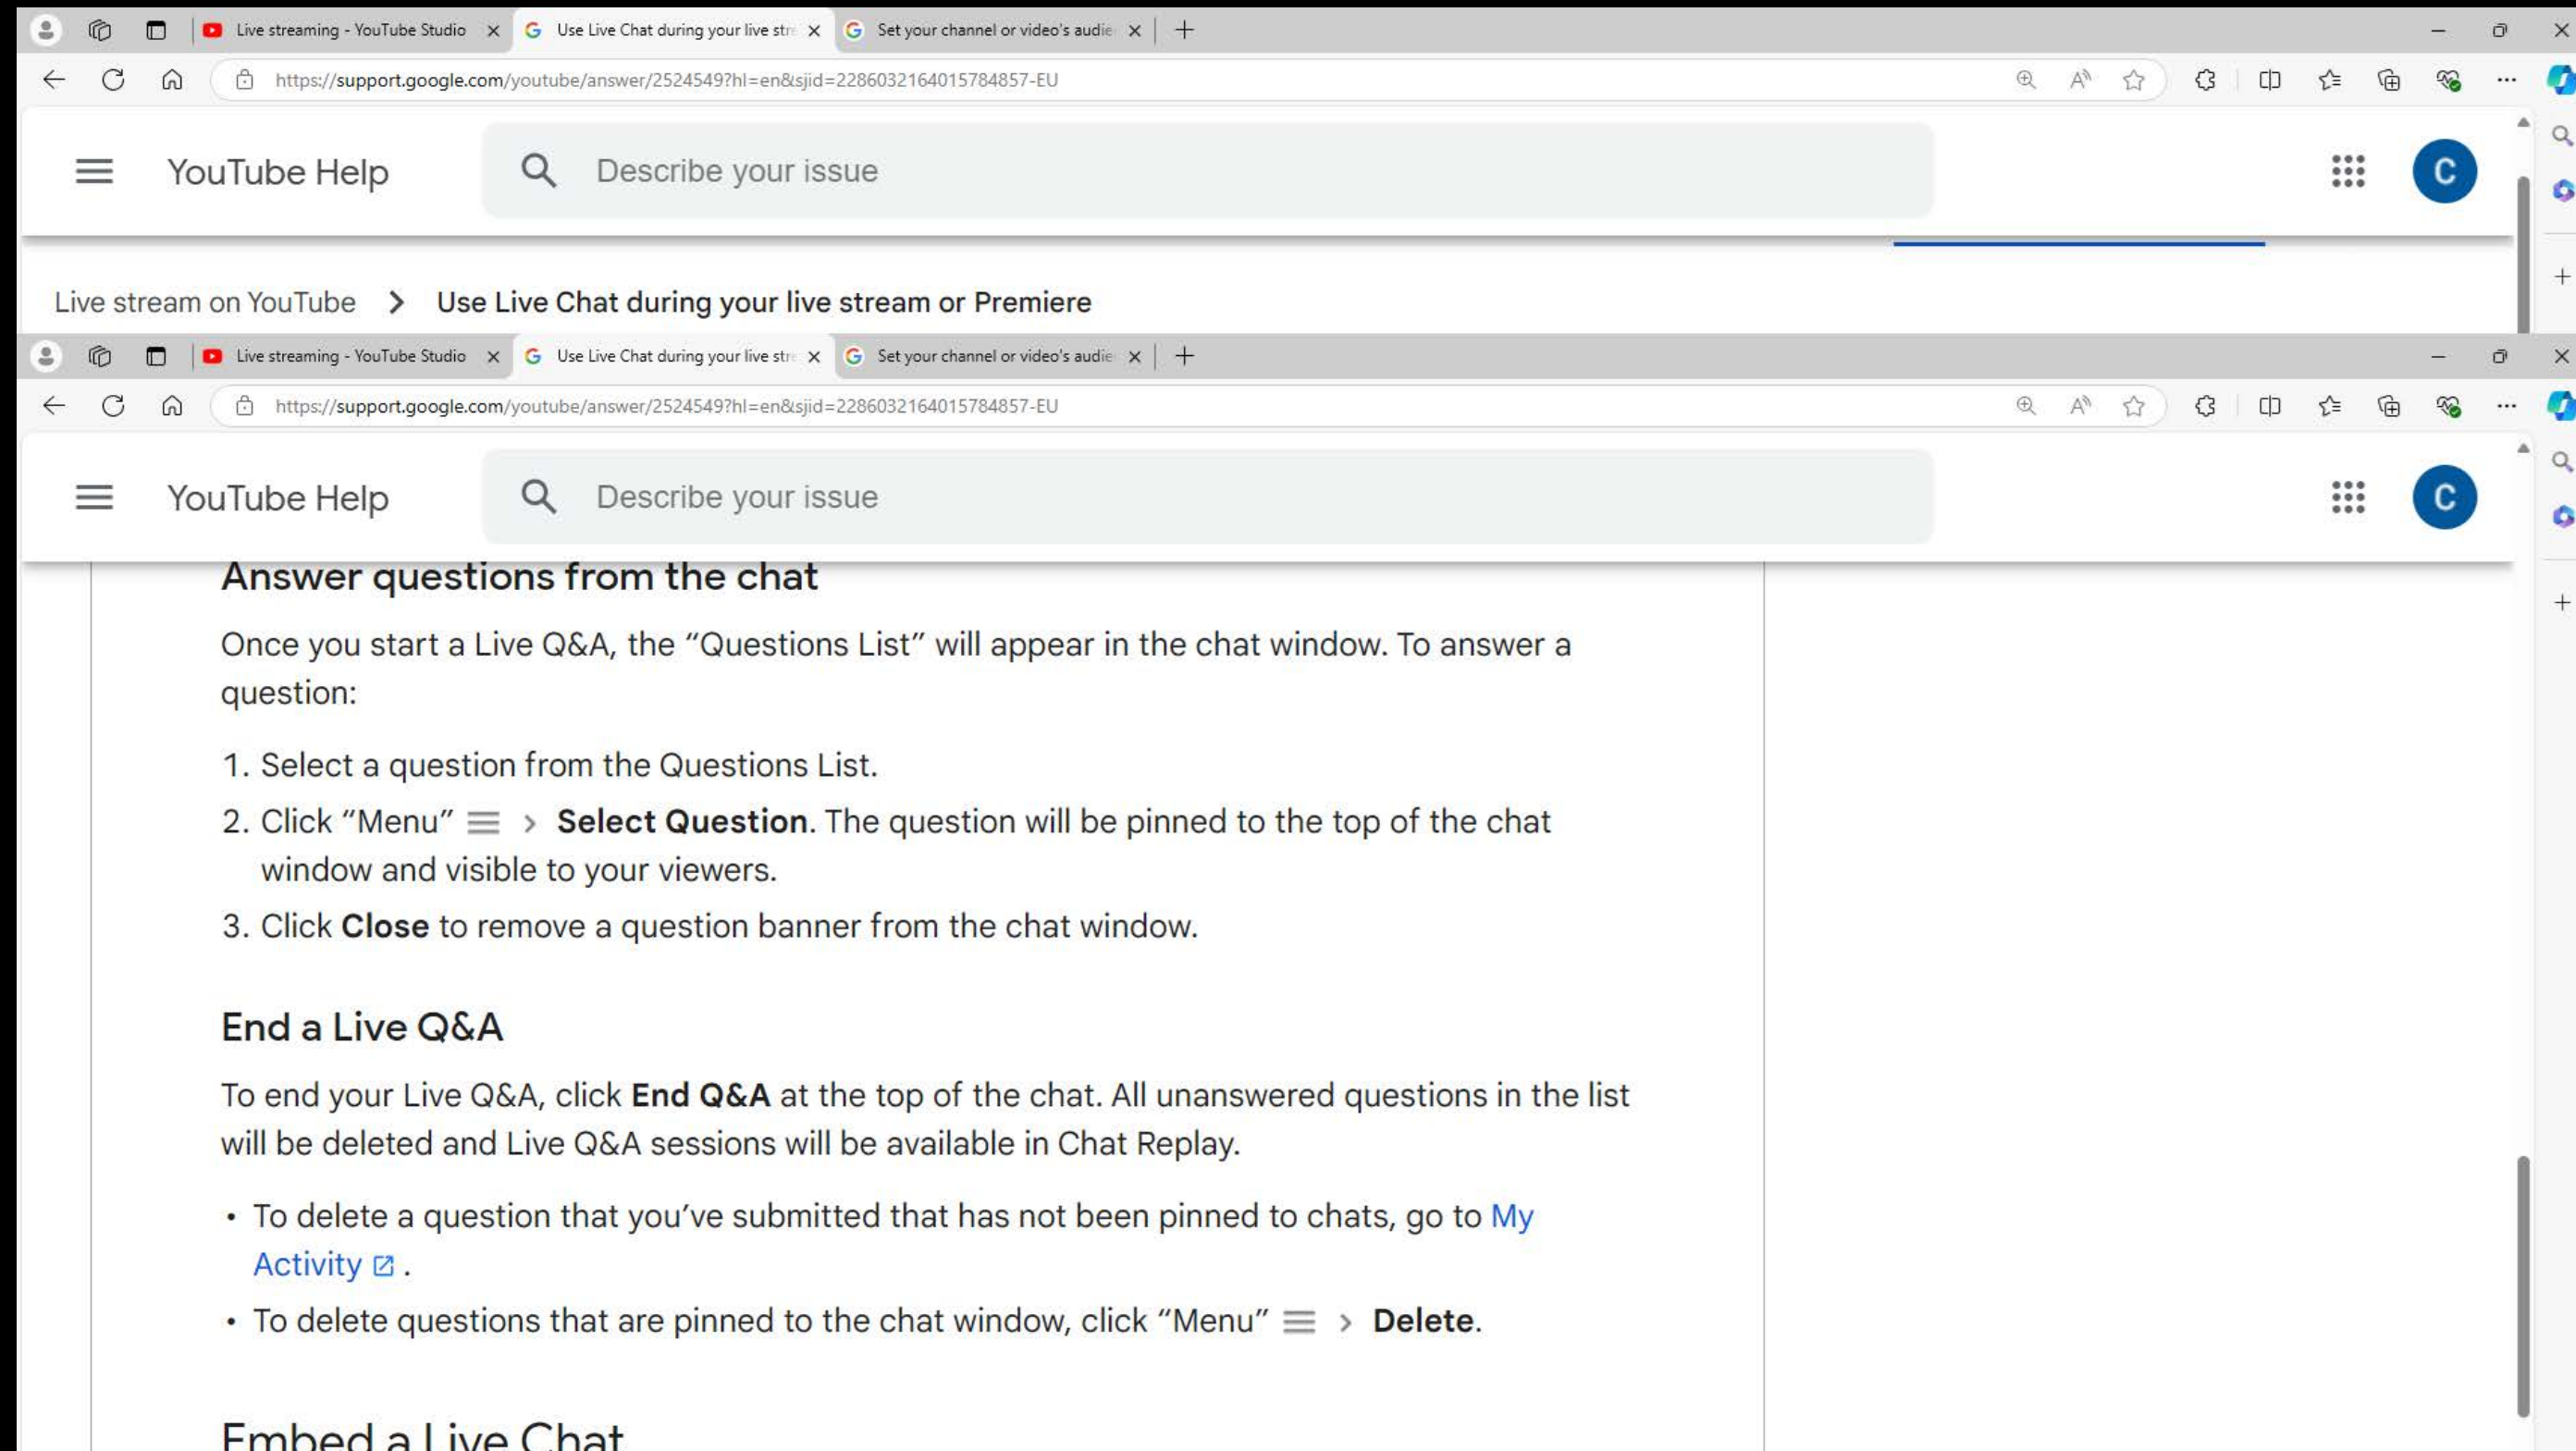

To end a poll and see the results in the chat from the banner at the top of the chat, tap **End poll**.

Start a Live Q&A

Live Q&A lets you find and select questions within your Live Chat to answer for your viewers. To start a Live Q&A:

1. Schedule or start a live stream or a Premiere.

Live Chat with Youtube

The image shows a screenshot of a web browser displaying a YouTube Help article. The browser's address bar shows the URL: <https://support.google.com/youtube/answer/2524549?hl=en&sjid=2286032164015784857-EU>. The page title is "Live stream on YouTube > Use Live Chat during your live stream or Premiere". The article content is as follows:

Answer questions from the chat

Once you start a Live Q&A, the "Questions List" will appear in the chat window. To answer a question:

1. Select a question from the Questions List.
2. Click "Menu" ≡ > **Select Question**. The question will be pinned to the top of the chat window and visible to your viewers.
3. Click **Close** to remove a question banner from the chat window.

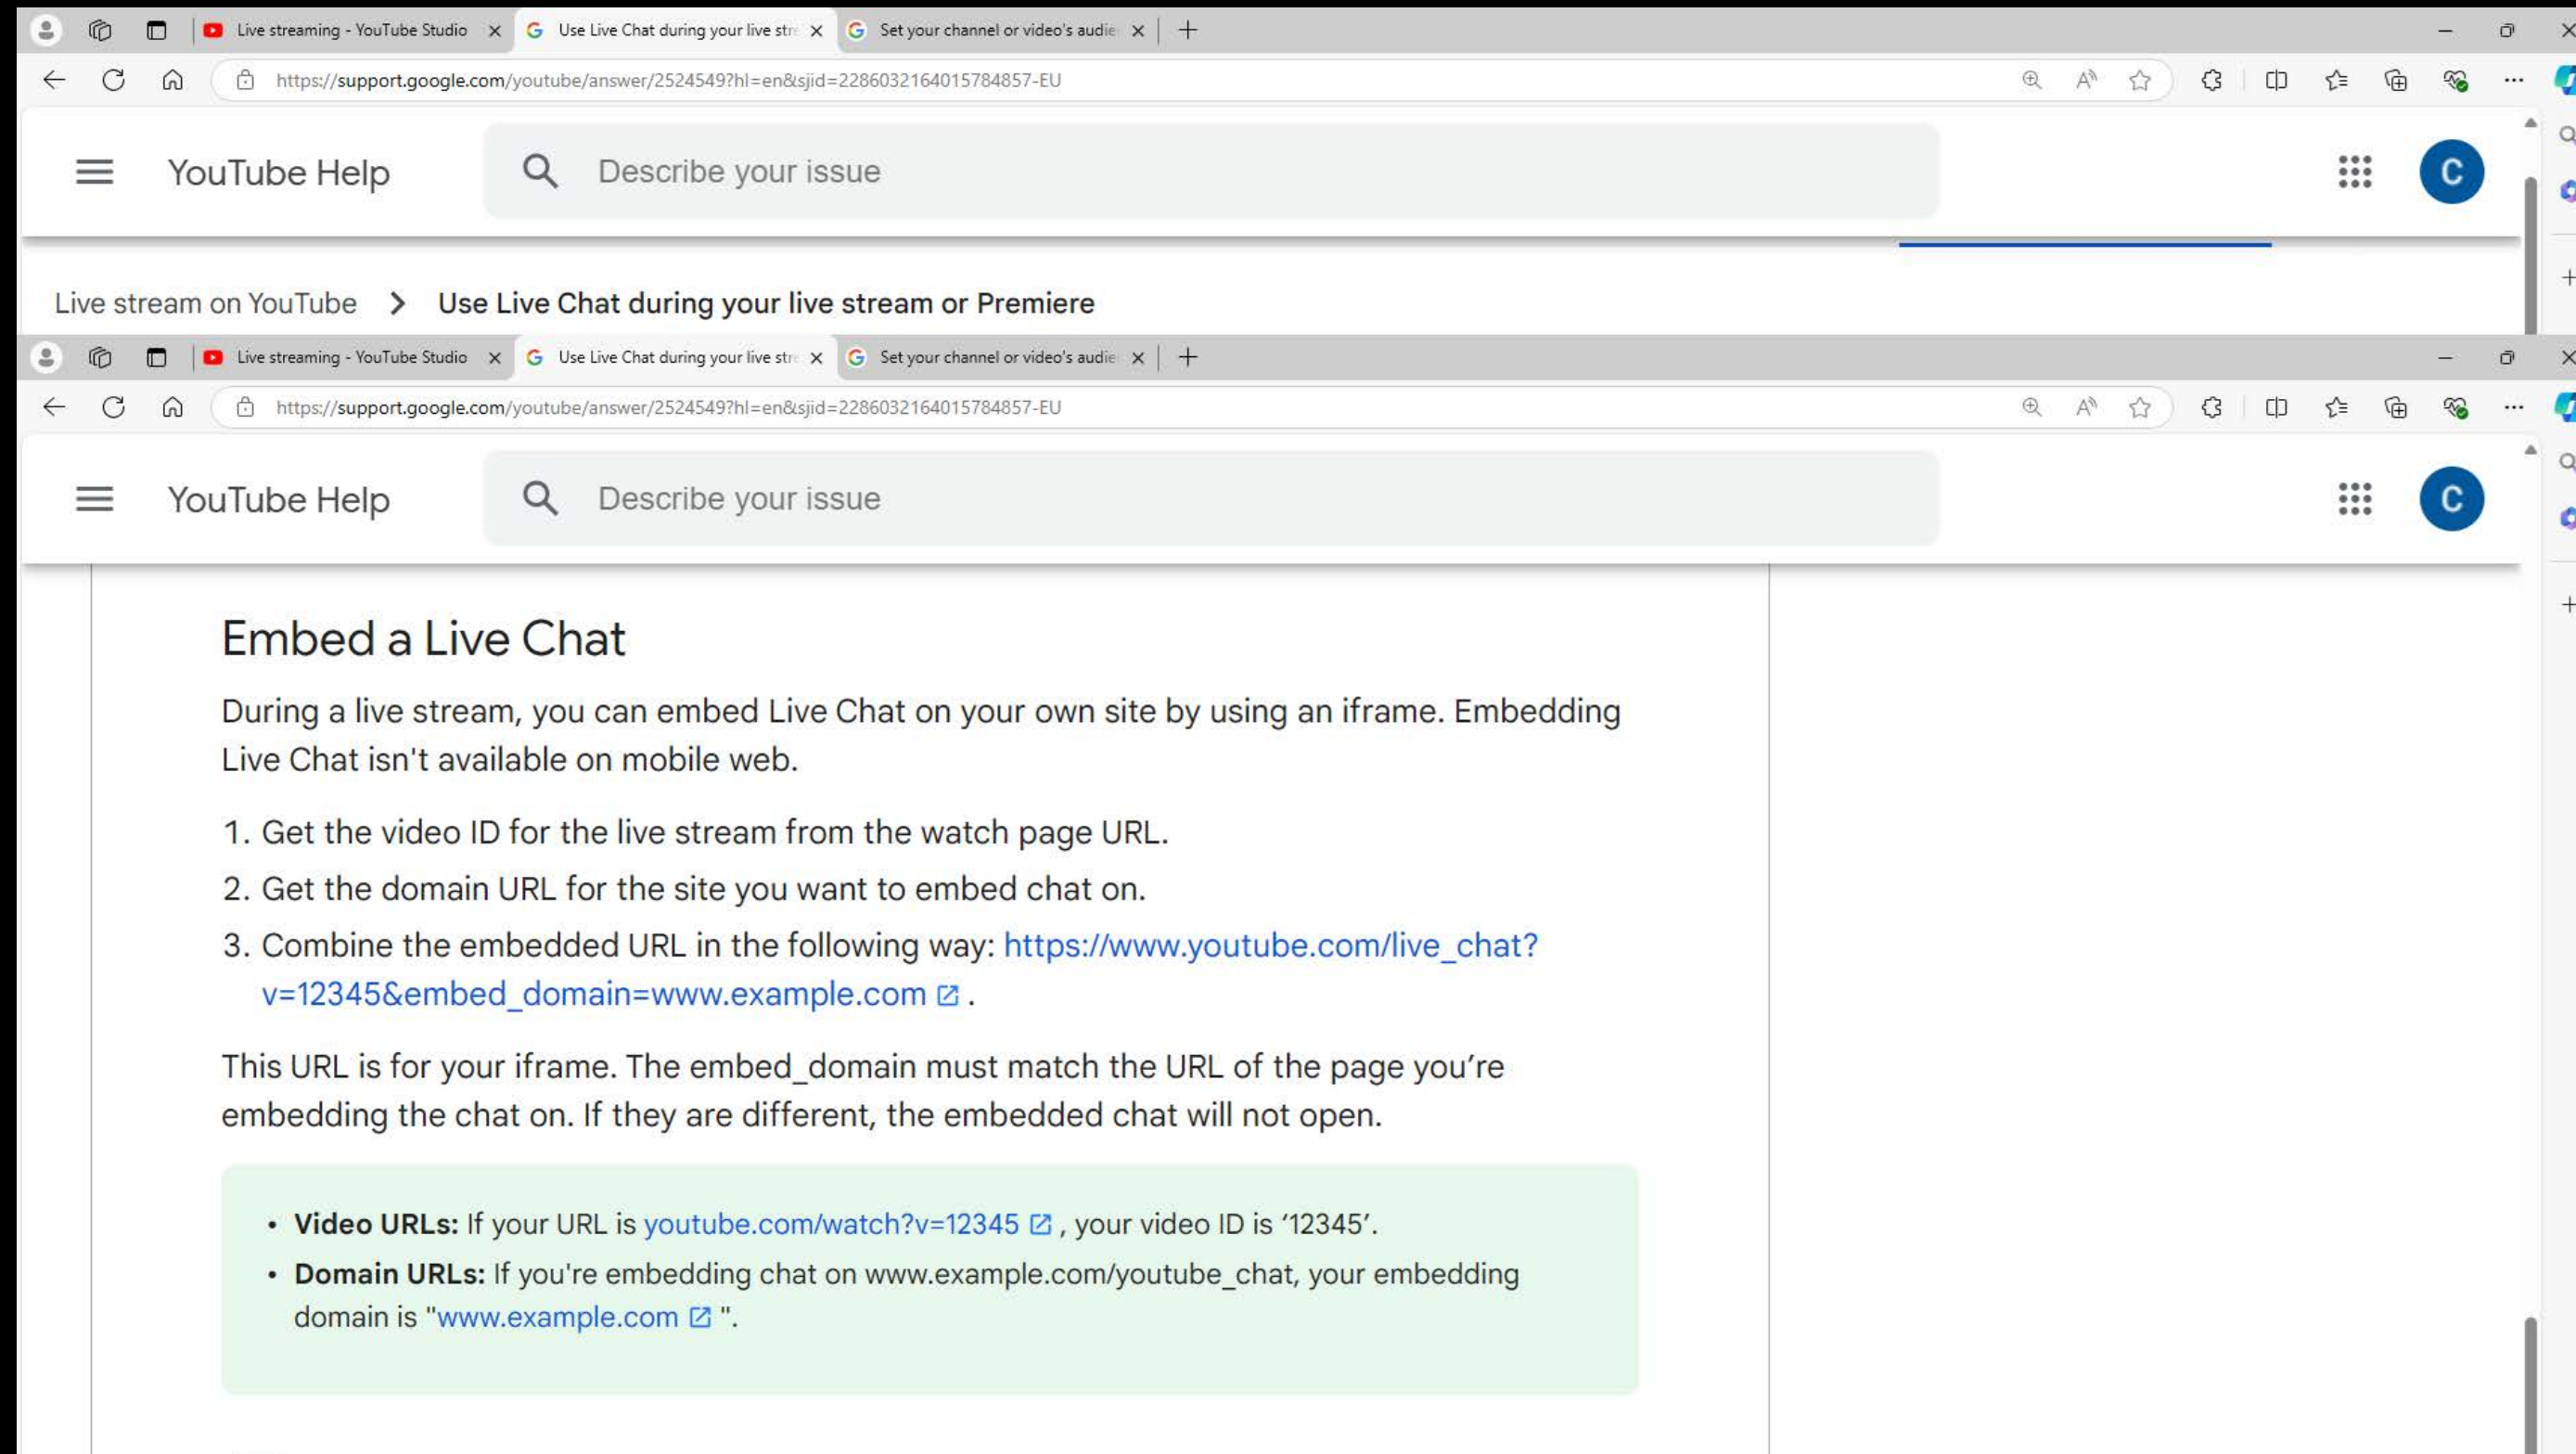

End a Live Q&A

To end your Live Q&A, click **End Q&A** at the top of the chat. All unanswered questions in the list will be deleted and Live Q&A sessions will be available in Chat Replay.

- To delete a question that you've submitted that has not been pinned to chats, go to [My Activity](#).
- To delete questions that are pinned to the chat window, click "Menu" ≡ > **Delete**.

Embed a Live Chat

Live Chat with Youtube

The image shows a screenshot of a web browser displaying a YouTube Help article. The browser's address bar shows the URL: <https://support.google.com/youtube/answer/2524549?hl=en&sjid=2286032164015784857-EU>. The page title is "Live stream on YouTube > Use Live Chat during your live stream or Premiere". The article title is "Embed a Live Chat".

During a live stream, you can embed Live Chat on your own site by using an iframe. Embedding Live Chat isn't available on mobile web.

1. Get the video ID for the live stream from the watch page URL.
2. Get the domain URL for the site you want to embed chat on.
3. Combine the embedded URL in the following way: https://www.youtube.com/live_chat?v=12345&embed_domain=www.example.com .

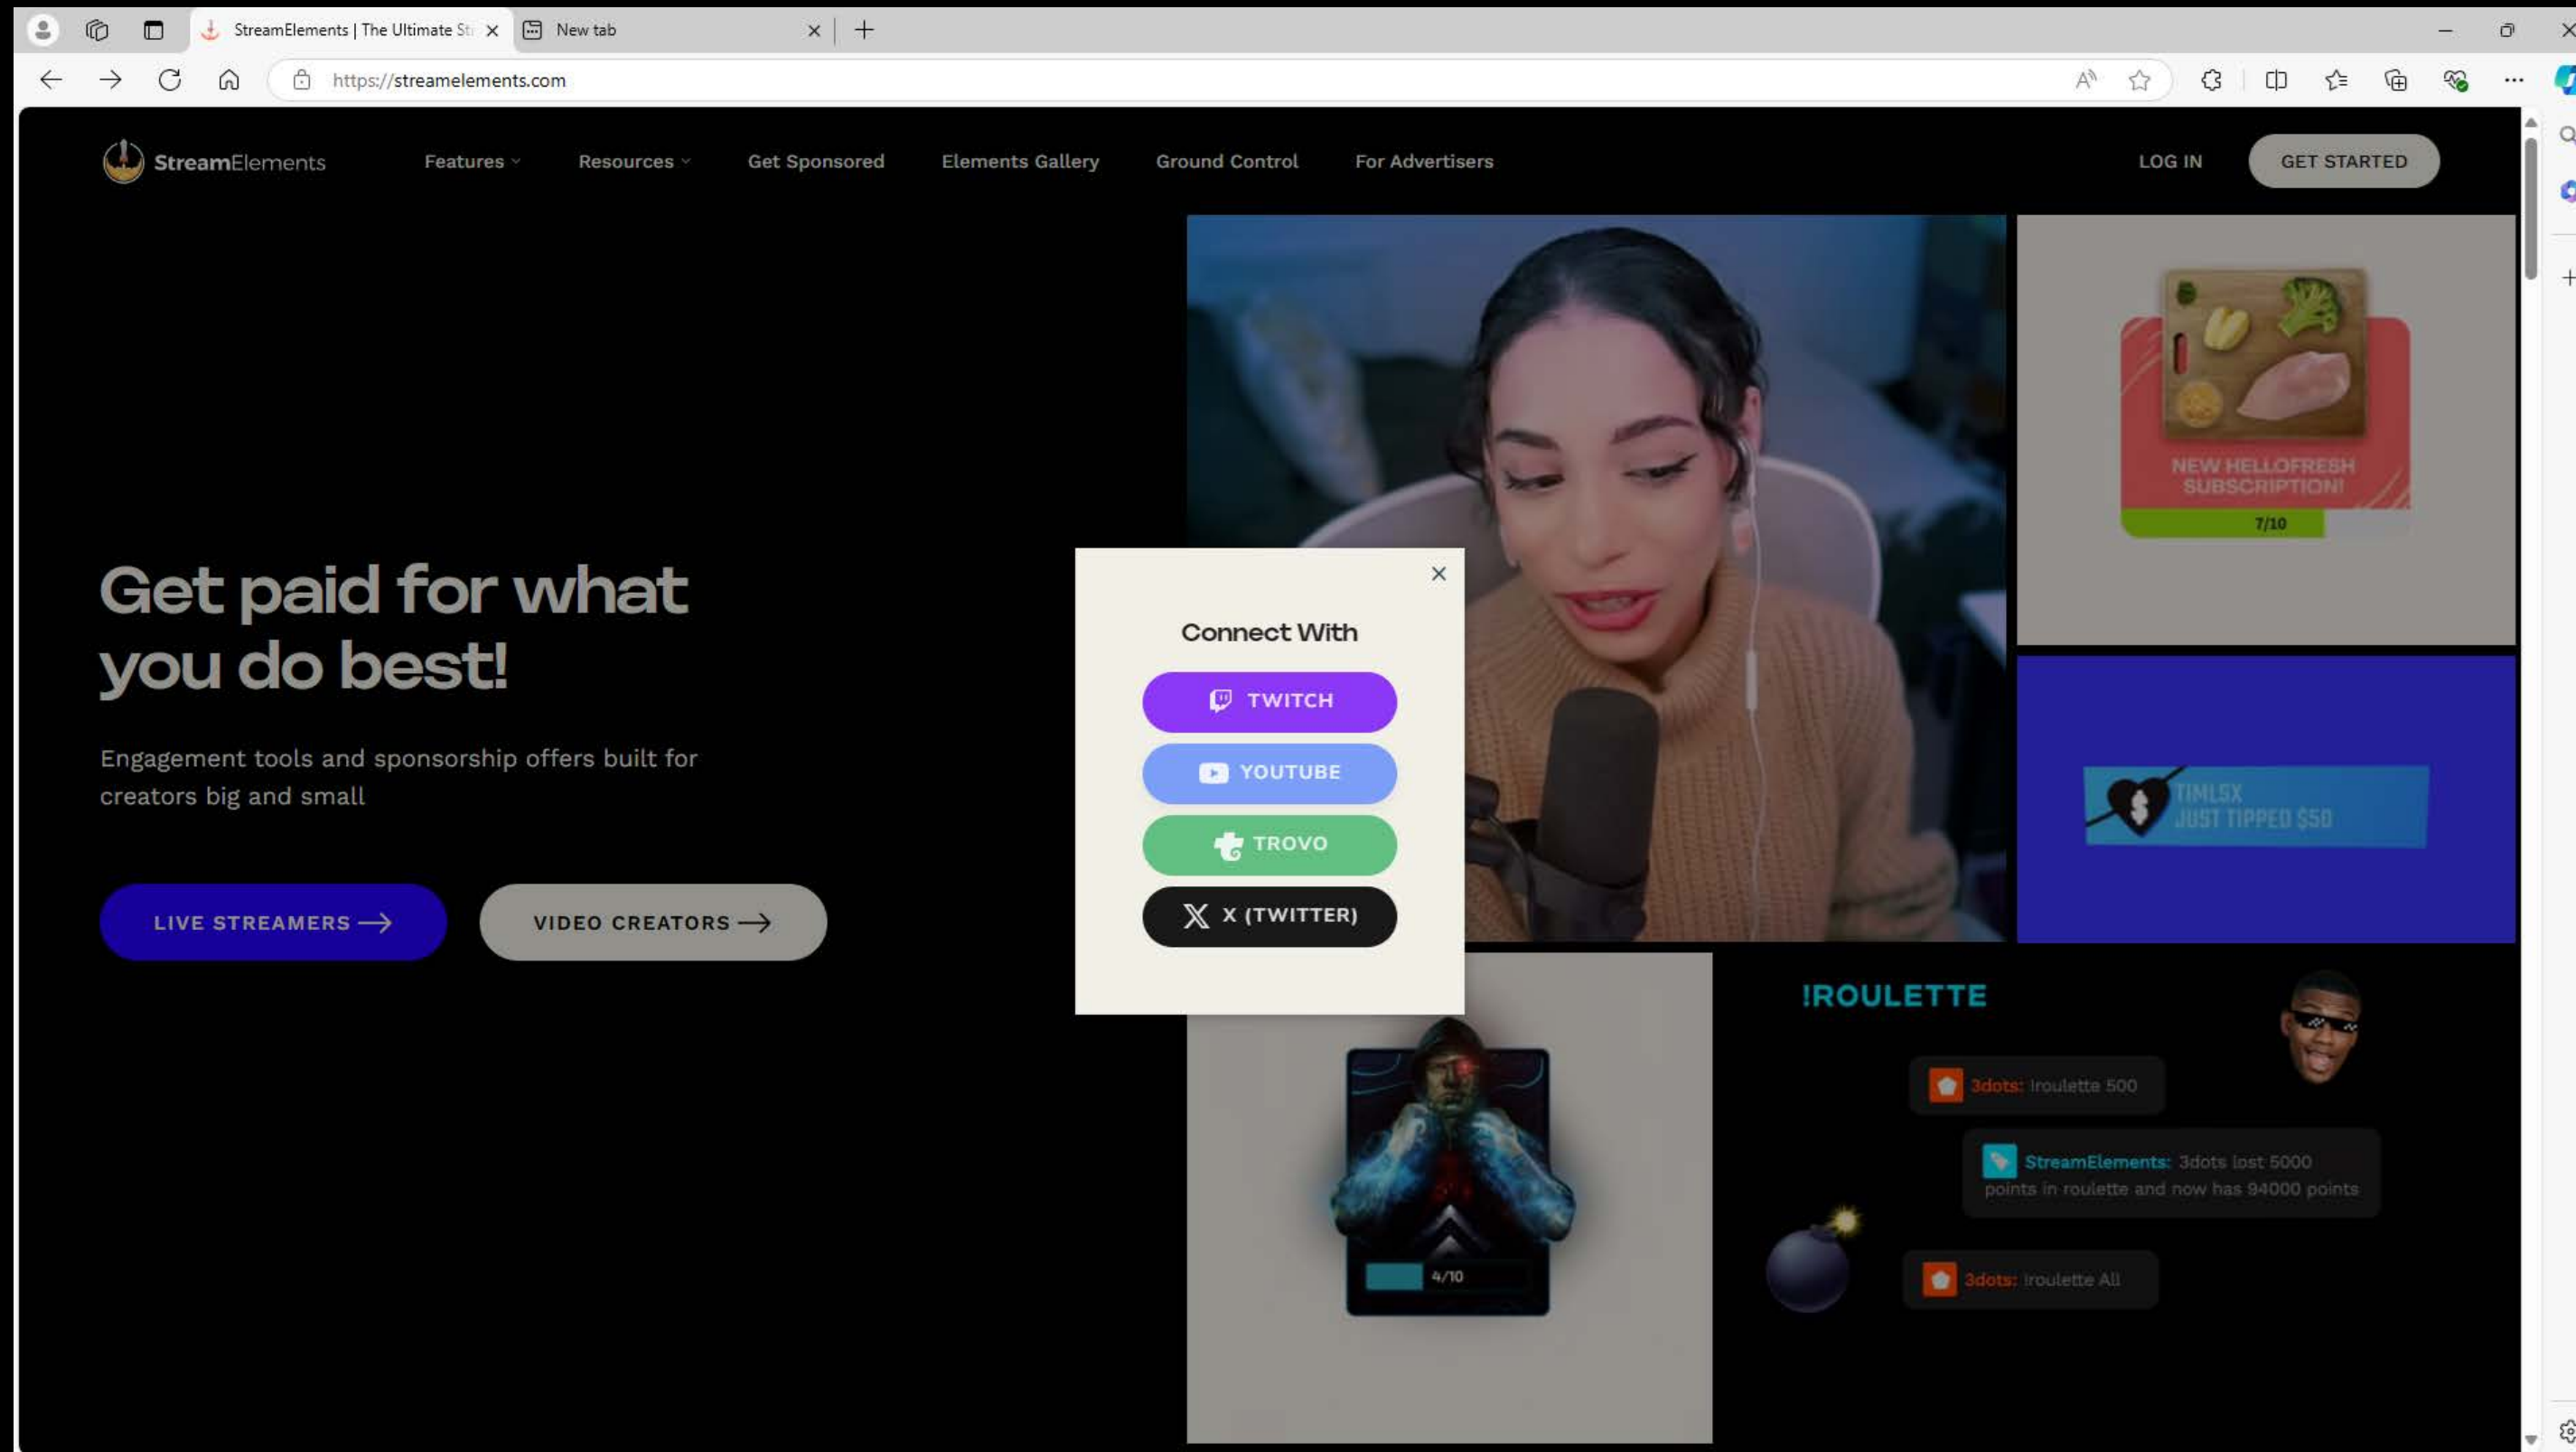

This URL is for your iframe. The embed_domain must match the URL of the page you're embedding the chat on. If they are different, the embedded chat will not open.

- **Video URLs:** If your URL is [youtube.com/watch?v=12345](https://www.youtube.com/watch?v=12345) , your video ID is '12345'.
- **Domain URLs:** If you're embedding chat on www.example.com/youtube_chat, your embedding domain is "www.example.com".

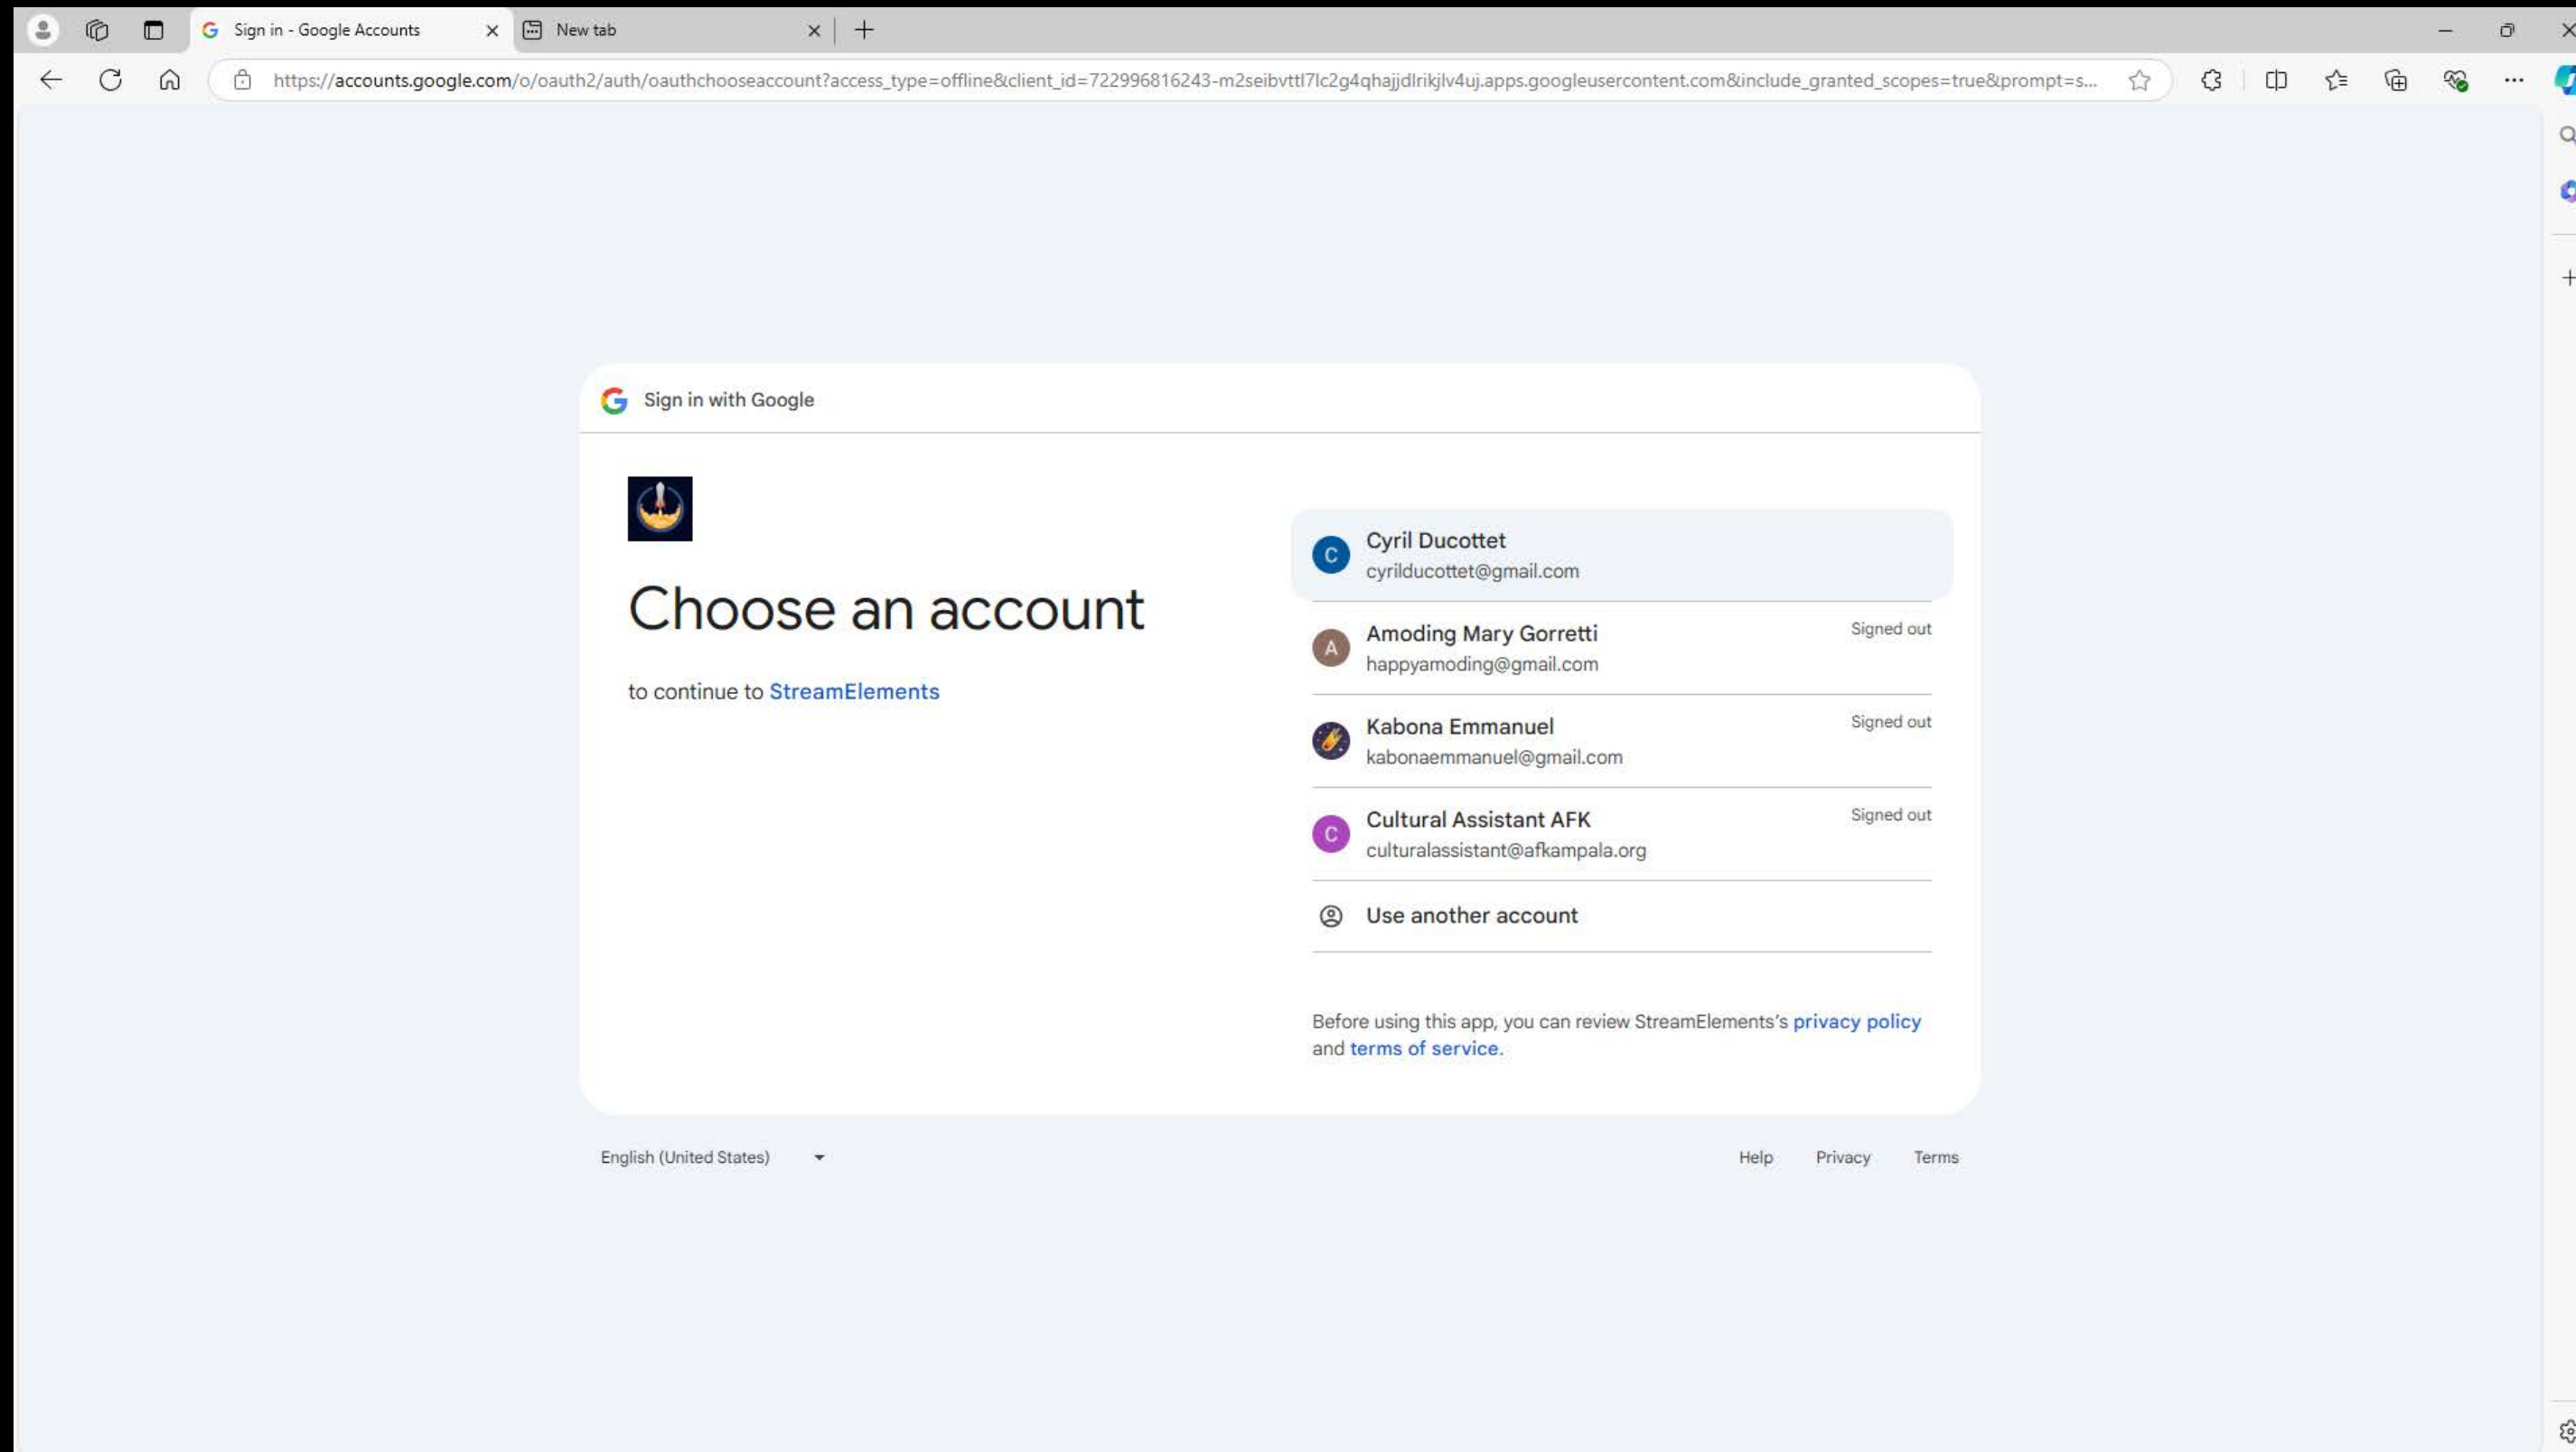

How to monitor your Live chat with OBS

The screenshot displays the StreamElements website interface. On the left, a navigation menu includes 'StreamElements', 'Features', 'Resources', 'Get Sponsored', 'Elements Gallery', 'Ground Control', and 'For Advertisers'. A 'LOG IN' button and a 'GET STARTED' button are visible in the top right. The main content area features a large video player showing a streamer named 'Bescotti' with a microphone. To the right of the video are two overlays: a 'NEW HELLOFRESH SUBSCRIPTION!' overlay with a price of \$10, and a 'TIMLSX JUST TIPPED \$50' notification. Below the video, there is a 'HELLADL1337 DOWNLOADED THE GAME' notification and a 'IROULETTE' chat section. The roulette chat shows a user '3dots' betting 500, losing 5000 points, and then betting all 94000 points, which they also lost.

The screenshot shows a web browser window displaying the StreamElements dashboard. The dashboard has a dark theme and a sidebar on the left with navigation options: Data & reports, Dashboard, Activity feed, Revenue history, Streaming tools, Sponsorships, Revenue, Chatbot (NEW), and Other. The main content area shows a progress bar at 50% and a list of features: Chatbot, Tipping activation, Overlays, and SE.Live. A large modal window titled "STAGE 2 OF 4" is overlaid on the dashboard, with the heading "Set up your free tipping page and start earning money from your". Below the heading, it says "HI, CYRILDUCOTTET5!". A smaller "StreamElements SE.Live v24.1.30.97 Setup" window is open over the modal, showing the "Choose Install Location" step. It prompts the user to "Choose the folder in which to install StreamElements SE.Live v24.1.30.97." and shows the "Destination Folder" as "C:\Program Files\obs-studio". The setup window also displays "Space required: 97.7 MB" and "Space available: 40.8 GB". At the bottom of the setup window are buttons for "< Back", "Next >", and "Cancel". In the background, the dashboard shows a "CONNECT" button and a "Bot settings" section with "PART" and "MUTE" buttons. The browser's address bar shows "https://streamelements.com/dashboard".

Basics of Editing

0 Opening the video editor (Davinci Resolves) Selecting or creating/naming our project

1 Importing the medias (Footage, Videos, audios, pictures) in the project

2 Classification of footage

Creating and naming Folders within the editing software to classify the content

3 Previewing and Selecting the Best part of each clip (in and out markers)

Note that we can select different part for the same clip in which case we duplicate the clip

4 Thinking / Scripting time

After watching and selecting our best clips we can now decide on the flow and order

Basics of Editing

- 5 Inserting the clips on our Timeline
- 6 Using the cut and selection tools
- 7 Understanding the different Layers
- 8 Understanding the transfer modes
- 9 Exporting our creation
- 10 Loading our Video in OBS and Playing it back

Watch the lesson on youtube to understand step by step how to achieve this with DaVinci Resolve
